

Moataz Ali

Frontend Web Developer

Alex, Egypt | +20 1210127111 | 24 DEC 1994 | Single | Exempted

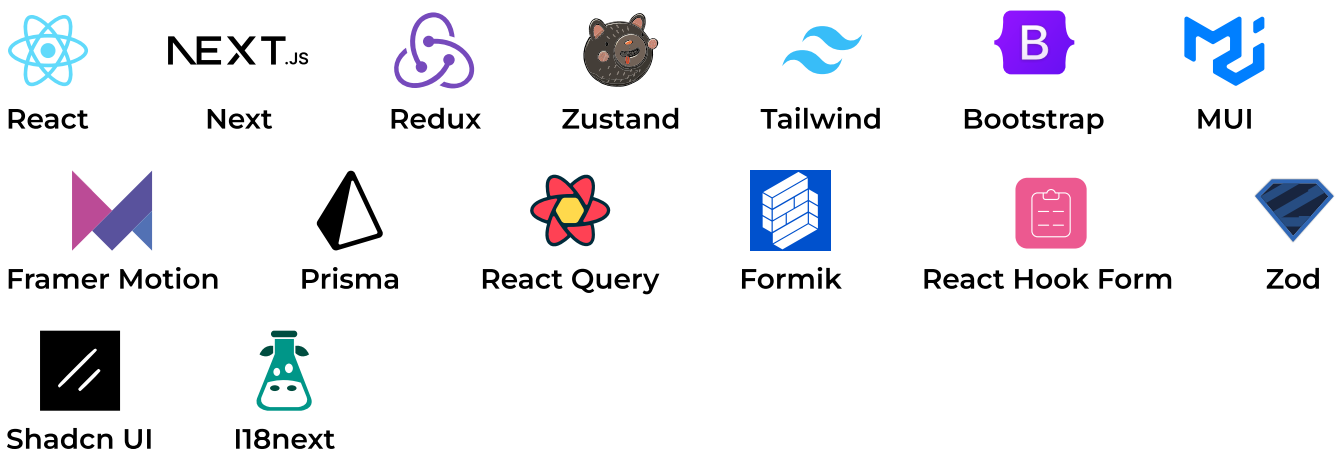

Summary

I am a dedicated Frontend Web Developer with a strong foundation in React and Next.js, complemented by extensive experience in TypeScript and Prisma. Transitioning from a successful five-year career in banking to follow my passion for programming, I bring a unique problem-solving mindset to every project. I have developed a range of web applications, from eCommerce platforms to advanced authentication systems. Currently, I am expanding my expertise by studying Laravel PHP. I am open to relocation and eager to contribute to dynamic teams in innovative environments.

Work Experience

Frontend Web Developer

11/2023 - Present

Alex, Egypt

- **eCommerce Store**

Full stack store app build with Next, prisma, supabase db and full functional dashboard. You can find the backend dashboard project on my github.

- **Movies App**

This project is a simple Next React-based movies application built as part of the Vodo company internship task. It displays a list of movies and movie details with the ability to search for a specific movie.

- **Next Auth V5**

This project provides an advanced implementation for Next Auth V5, covering comprehensive features and best practices for integrating authentication in Next.js.

- **Linkedin Clone**

This project is a clone of LinkedIn built using React with Vite as the bundler. It aims to replicate some of the core features of LinkedIn, allowing users to view posts from others, interact with likes and comments, and manage their own profiles.

Banker

04/2018 - 09/2023

Banque Misr | Alex, Egypt

- I worked as a bank employee for 5 years before i decided to leave and shift my whole career into something i love.
